YASKAWA

HC10 WORKSTATION

WORKSTATION RISER FOR HC10 SERIES ROBOTS

KEY BENEFITS

Mobile HC solution

Integrates controller and robot

Quickly redeployed

APPLICATIONS

Arc Welding

Assembly

Machine Tending

Pick and Place

ROBOTS

HC10

HC10DT

HC10XP

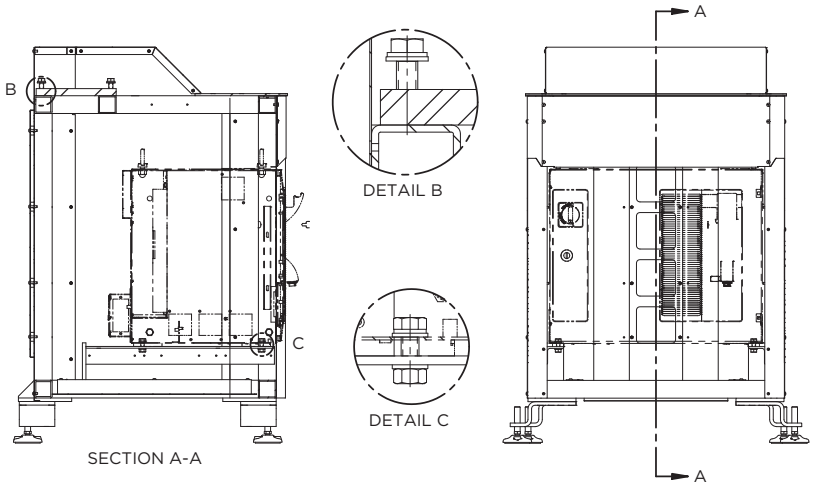
HC10DTP

CONTROLLER

YRC1000

- An economical solution for integrating the HC10 robot with the YRC1000 controller into a single package.
- Metal cabinet houses YRC1000 robot controller.
- Cables are internally managed.
- Features a small footprint with comfortable working height for most collaborative applications.
- Easily integrates into current workspace or quickly relocates with a pallet jack or forklift.
- Built-in leveling feet provide a stable platform while the HC10 runs at maximum speed and payload capacity.
- 2-meter robot cable with 90-degree connector to controller for efficient wire management.
- Optional area scanners provide speed and separation monitoring.
- Optional stack light can alert nearby users to robot movement, alarms or general status.

Note: Robot and controller sold separately.



SECTION A-A

Dimensions: 1,091 mm (H) x 734 mm (W) x 805 mm (D)
