NORTON
SAINT-GOBAIN

QUANTUM 3™

Reshaping your world.

WORK SMARTER
WITHOUT WORKING HARDER

We already provide the best wheels in the industry. Invented and made in America, now improved and expanded. The Norton Quantum3 RightCut is our top tier cut-off wheel, available in 0.045" and 1/16" thickness. If you want speed of cut and work on thin or hollow materials, the 0.045" will get you there with comfort. If you are cutting thicker materials and life of the wheel is important, then the 1/16" is ideal. Whatever your pick is, experience the extra-smooth cutting action, thanks to our premium ceramic grain.

Experience it for yourself. Request a sample today.

SAINT-GOBAIN

NORTON SAINT-GOBAIN QUANTUM 3

Right Cut

WHAT'S IN IT FOR YOU?

1. **Operator Comfort...** with reduced hand fatigue from less cutting vibration
2. **Less Cutting Time...** with a sharper wheel in two thicknesses for speed and life
3. **Less Downtime & Waste...** with longer wheel life using fewer wheels

POWERED BY NORTON
INSPIRED BY YOU

Now you can work smarter without working harder.

The Norton Quantum3 RightCut wheel delivers remarkable power and refined control, start to finish, so operators have smooth cutting performance to get the job done faster while using fewer wheels. The impressive cutting action doesn't compromise on comfort as it effortlessly slices through metal.

This is the result of perfect formulation from customer feedback, our relentless commitment to end-user comfort and a brilliant infusion of technology.

Because Right Choices Matter!

Internal Norton Testing

A36 carbon steel 4" x 1/4" flat bar, using a 12 amp electric tool. Wheels are tested to end of life.
